

MAGNUS LYNGRA

Computer engineer at UiT - The Arctic University of Norway

41611628 • magnuslyngra@live.no • <https://www.linkedin.com/in/magnuslyngra/> • Tromsø

Summary

A software developer that loves to build things and working for continuous improvements. Do my best to contribute to a fun and engaging working environment. Enjoy technology and have experience with technologies like SQL/GraphQL and Python. A supporter of open source software and a diehard linux enthusiast.

Experience

UiT- The Arctic University of Norway	Tromsø, Norway
Head Engineer	06/2024 - Present
Working in a shared position between the education department and the IT department, trying to bring them closer together in relevant areas. This includes keeping a close dialogue between the two departments and furthering collaboration between them. I also assist in developing existing and new systems and solutions for the departments. This includes working with SQL, Python, GraphQL and other relevant technologies.
