

# Magnus Lyngra

Address: Tromsø Region, Norway

Email address: magnuslyngra@live.no

## Profile

Jobber med driftssikkerhet av UiTs AV-løsninger (audio/video) på møte- og undervisningsrom. Er engasjert i humor og humør (vi skal trives på jobb), effektivitet og kontinuerlig fremgang i prosjekter. Jeg brenner for hvordan automatisering og ny teknologi kan bidra til mer driftssikre løsninger som kan løse problemer mer effektivt enn det gjøres i dag.

## Work Experience

03/2022 NORWAY

### Head Engineer

#### UiT- The Arctic University of Norway

Advanced audio/video support

Recording and streaming of lectures, courses and conferences

Operation and management of audio/video equipment

06/2019 – 03/2022 TROMSØ AREA, NORWAY

### Adviser

#### UiT- The Arctic University of Norway

Admissions department

02/2016 – 05/2019

### Higher Executive Officer

#### UiT- The Arctic University of Norway

08/2015 – 02/2016

### Veileder

#### NAV

Veileder NAVs brukere om rettigheter om muligheter man har gjennom NAV på generelt grunnlag. Vi gir mennesker muligheter.

09/2014 – 08/2015

### Consultant

#### UiT The Arctic University of Norway

Jobbet med HMS, innkjøp, innredning av kontorer/pauserom/lesesaler, saksbehandling i Ephorte og var teknisk støtte på AV-utstyr og tidvis IT.

01/2014 – 08/2015 TROMSØ AREA, NORWAY

### Secretary

#### UiT The Arctic University of Norway

## Work Experience

Gjorde forefallende kontorarbeid. Ga service til studenter og ansatte ved UIT, bisto administrasjonen ved diverse arrangementer osv.

03/2012 – 09/2013

### Salesman

#### Narvesen

My job was simply to give the best customers service I could, as well as being a good salesman at the same time. In my experience, a customer who smiles when they leave your shop will come back, and though you might not have gotten them to buy something extra that time, if you make them smile the next time, you just might. It also makes both your and their day better if you're always in a good mood and seem pleased to see them.

09/2011 – 06/2012 TROMSØ

### Volunteer

#### Studenthuset Driv

Worked as a volunteer in the security group at the student house of the university of Tromsø.

02/2010 – 08/2010

### Mailman

#### Norwegian Mail

As a mailman in the outskirts of Northern Norway, I delivered mail, but also acted as a sort of "bank on wheels", where people could pay their bills through me, deposit or withdraw money from their bank accounts (if they had the so called "mailbank"), so my job entailed many more things than simply putting letters in peoples mailboxes.

06/2006 – 08/2007

### Nurses aid

#### Andøy kommune

As a nurses aid, it was my job to take care of the elderly and try to tend to their needs as best I could.

## Education

08/2021 – 06/2024

### Computer Science | Bachelor's degree

#### UiT- The Arctic University of Norway

The degree includes intro to programming,

## Education

---

object-oriented programming, computer architecture, security, network communication, operating systems and databases.

The courses include a significant amount of programming in Python and C, as well as some Assembly, SQL and a little bit of HTML and Javascript.

The program is very practical and creative with many work requirements throughout each semester that require programming.

 01/2013 – 12/2015

**Political Science and Government |  
Master's Degree  
UiT- The Arctic University of Norway**

 01/2010 – 12/2013

**Political Science and Government |  
Bachelor's degree  
UiT- The Arctic University of Norway**

 01/2006 – 12/2010

**Andøy videregående skole**
